

THE ARCHITECTURAL DIGEST GREENROOM

AT THE
79TH ANNUAL ACADEMY AWARDS®

OSCAR® PRESENTERS' BACKSTAGE HAVEN FEATURED MOTHER OF PEARL APHRODITE WALLCOVERING (IN ENTRYWAY) BY MAYA ROMANOFF; LCD-TV BY SHARP AQUOS; SQUARE SOFA, COCKEREL OTTOMANS AND PARIS CHAIRS BY GEORGE SMITH WITH LEE JOFA FABRICS; PAINT BOX CARPETING BY MOHAWK; PANTONE PAINTS BY FINE PAINTS OF EUROPE EUROLUX INTERIOR ACRYLIC

Breaking new ground with a "green" design scheme, this year's Architectural Digest Greenroom at the 79th Annual Academy Awards provided celebrity presenters with an elite backstage oasis for the fifth consecutive year. Designers Matthew White and Frank Webb of White Webb, LLC consulted with Global Green USA and the Natural Resources Defense Council to prove that glamour and eco-friendly design are a natural combination. As Hollywood's glitterati awaited cues to take the stage, they feasted their eyes on everything from renewable mother of pearl wallcovering to carpeting made from recycled plastic bottles to stunning furniture of sustainably harvested wood.
